Path Forward of Kentucky Medicaid services

What is a Supports for Community Living (SCL)/Michelle Phillips Waiver (MPW)/Acquired Brain Injury (ABI) Service Provider:

SCL/MPW/ABI providers include regional comprehensive care centers along with public and private human services agencies across the state. These providers are reviewed and certified by the Department for Behavioral Health, Developmental and Intellectual Disabilities at least annually, in accordance with the standards and requirements set forth by the Kentucky Department for Medicaid Services. SCL/MPW/ABI providers are continuously monitored to maintain quality of supports. All providers have agreed to provide services according to the best practice accepted by their professional organization and to provide services in compliance with federal and state statutes regardless of age, color, creed, disability, ethnicity, gender, marital status, national origin, race, religion, or sexual orientation.

Path Forward of Kentucky offers the following services:

Case Management: An approach to coordinating care, supports and services for a participant receiving Supports for Community Living (SCL) funding using a Person-Centered Planning process. It provides the participant and his/her family with a point person/Case Manager who assists in connecting with community and waiver resources. The Case Manager works closely with the participant to ensure ongoing satisfaction and that needs are met, and that health, safety and welfare assurances are in place. The Case Manager is to serve as an advocate to safeguard the participant's choices among many potential providers.

Community Access: Designed to provide an opportunity for a participant to connect and become involved with clubs, associations and any other groups in the community including recreational, educational, religious, civic and volunteer opportunities with an outcome of less reliance on formal supports and an emphasis on the development of personal social networks, membership opportunities, friendships, and relationships for the participant.

Community Living Supports: A one-on-one service used to increase or maintain personal self-sufficiency, facilitating the participants achievement of his/her goals of community inclusion and participation, independence or productivity.

Fax: 502-451-2732

Companion Care: Assistance with daily activities of living provided to a participant who lives at home. The purpose is for the participant to become independent in various activities of daily life. Participant will be empowered to develop natural supports. Participant will receive assistance to focus on acquiring, practicing, utilizing, and improving skills related to: Connecting with others, Independent functioning, self-advocacy, socialization, community participation, personal responsibility, and financial responsibility.

Personal Assistance: Designed to enable the participant to accomplish tasks that they would do for themselves, if he/she did not have a disability. This may include hands-on assistance; reminding, observing, guiding or training during an activity; assistance in managing medical care and transportation to access community services, activities and appointments, if these are not available under the Medicaid Program. Personal Assistance Services are available only to those who live in their own residence or in their family's residence.

Positive Behavior Supports: Designed to support participants when there is a need to develop a plan which identifies prevention strategies to reduce significant challenging behaviors which interfere with activities of daily living, social interaction or work. The plan will instruct on replacement skills and new ways to respond to the challenging behaviors.

Residential Supports: Our agency offers residential support through matching up participants with a family home provider. Family home providers, also known as adult foster care, provide 24-hour supervision when needed, and training in activities such as laundry, routine household care, self-care, shopping, money management, socialization, and leisure activities. No more than three participants receiving waiver services can live in any residential setting at one time unless they are in a group home.

Respite: A short-term support that is provided in the absence of, or to give relief to, any individual providing care to the participant. It is available for a participant who does not receive residential services and resides in his/her own home or family's home and is unable to independently administer self-care. Respite may be provided in the home or community.

Supported Employment: Designed to assist in creating personalized employment opportunities. This service is utilized when the participant has the need for support in finding, negotiating, and maintaining employment in an integrated setting with competitive wages and benefits commensurate to the job responsibilities. It may also be used to pursue job advancement. **Funding through the Office of Vocational Rehabilitation must be exhausted before Supports for Community Living waiver services can be used.**
